

Please know that we enjoy immensely the service that KLOVE radio offers our family by usage of LPFM. It is the only source of contemporary Christian radio in the Tucson area and we would sorely miss the service. There are enough choices for other programming that more LPFM does not need be added for other formats. KLOVE provides enjoyable listening that does not need to be monitored such that young children might be affected by negative influences. It is very wholesome programming and offers a great alternative to everything else that is out there.

Please do not take away this service by forcing a conversion of the current programming.

Thank you,

Thom Dwan
